Reed Graduated from Temple Med

Reed is delighted to be living Eccl 7:8 "Better is the end of a thing than its beginning" as he graduated from medical school on May 10th. He has been accepted into a Family Medicine residency at The Reading Hospital Medical Center where Chip has worked during our past furloughs. His wife, Joy, is also in her last semester of a Master's in psychology. Please pray for them as they move to Reading, make new friends and search for a new church family.

Floor Poured in Store Construction

The Lord gave us a beautiful day for pouring cement – a little overcast with only occasional light rain showers. About 50 men started mixing cement at 6 AM. Bucket by bucket we carried cement to the second story and poured the 130 ft. by 35 ft. floor. No one was injured and we finished by 10 PM. Please pray as the church finishes these small stores and begins to rent them to raise funds for ministry projects.

The Story of Hope Study with Doctors

In April, several newly graduated doctors were hired to work in the county's health clinics. We invited them over for dinner and games and had a wonderful time. The next week we went out to dinner at a local restaurant and ran into these doctors with whom we had dinner. One asked Chip if he ever saw a medical miracle and that opened a discussion on spiritual issues. One of the physicians said he just did not understand the Bible and Chip offered to do a study that is a generalized overview of the Bible, called The Story of Hope (see www.goodsoil.com). We have started this study and are excited to help these seekers understand what God has communicated to us through his Word.

MABC Class Schedule Changes

Due to accreditation issues, synchronous off-site classes have been canceled for this summer. Chip will now be traveling to California in July for two weeks of intensive lectures. Lord willing he will complete 8 credits this summer and be half-way through his courses.

Praise

- New doctors showing interest in Bible studies.
- Construction has gone safely and moves toward having rental income to support ministry projects.
- The Lord provided a great car for Susanna as she finished up her first year of college and starts a summer internship.
- Pastor Jacó's surgeries went well and he is back to ministry at Faith Baptist.

Prayer

- Wisdom as we coordinate ministry between Brazil, other ABWE medical works and ongoing studies.
- Salvation and growth of those who hear the Word through hospital ministries.

Reed Graduates from Temple Medical School

We are proud of Reed as he completed his studies at Temple and will start a Family Practice residency at The Reading Hospital Medical Center where Chip has worked as a Trauma Surgeon. Reed’s graduation was also a time for the whole family to get together – a special added blessing.

Helping with Construction

Chip knew he would learn new skills after arriving in Brazil, but did not anticipate so much construction. He learned to read blueprints and has been helping Faith Baptist Church build a secure building for 7 stores and apartments that can be rented for ministry income.

These photos show the preparation of the second floor and the concrete being poured bucket by bucket, a task that took 16 hours. We will be delighted when the project is finished.
